COMPANY OVERVIEW

VETAIML Academy LLC is a veteran-owned small business delivering **artificial intelligence and machine learning (AI/ML) development, data analytics, and IT systems support** to federal agencies. Led by a U.S. Army veteran and practicing AI/ML developer, we design, build, and operationalize data-driven solutions—and we build agency workforce capacity through applied AI/ML training. We combine hands-on engineering capability with a disciplined, mission-focused delivery model.

CORE COMPETENCIES

- AI/ML Engineering:** model development, training, evaluation, and deployment; generative AI and large language model (LLM) integration.
- Data Analytics & Engineering:** data pipelines (ETL), big-data processing, analytics, dashboards, and decision-support tooling.
- MLOps & Cloud:** model operations, CI/CD, monitoring, and secure deployment across AWS, Azure, and GCP.
- IT Systems Support:** systems design, integration, modernization, and operations & maintenance (O&M).
- AI/ML Workforce Training:** applied, outcomes-driven AI/ML upskilling for government and partner teams.

DIFFERENTIATORS

- Veteran-led, mission-structured delivery with direct, senior AI/ML expertise on every engagement.
- Practitioner depth: leadership holds an MS in Big Data Analytics and works as a full-time AI/ML developer.
- Agile small-business responsiveness with low overhead and direct access to decision-makers.
- Local to the Kansas City, MO federal corridor—able to support on-site needs.
- Dual capability: we both **build** AI/ML systems and **train** the workforce that sustains them.

PAST PERFORMANCE & OUTCOMES

- Delivered AI/ML training pilot cohort: 100% completion; 80% placed within 60 days (beta results).
- Designed and deployed cloud-based ML workflows and analytics solutions in commercial settings.
- Available for sources-sought responses, teaming, and subcontracting to build federal past performance.
